Krystal Clem, Community Development Director came forward. She stated that the right of way abutting this property is part of the downtown infrastructure plan. On-street parking will be added and infrastructure will be improved. It is currently in 30% design. Currently we don't have anything to show. The site has 23 parking spaces. When improvements are added, there will be 31 total including the on-street parking. There is a net gain.

Chris Carson, Senior Planner came forward. He discussed the information as presented in the Staff Report, which was included in the agenda packet for review.

Commissioner Duryea asked how many students will be in attendance per class. Mr. Carson stated that there will be 6-8 students per class. Commissioner Duryea asked if there would be multiple classes. Mr. Carson stated that there would be one class at a time. There will be a morning session and an evening session. Commissioner Duryea asked if we have enough parking between the

existing businesses and the new proposed business holding classes. Mr. Carson stated there is enough parking. It seems the parking lot is relatively empty. Per code it does exceed what the required parking is.

The item was then opened for a public hearing. Nobody came forward and the public hearing section was closed.

- a. Request to surplus Officer Snider's department issued handgun and gift it to him upon retirement.**

Mr. Smith discussed the information presented in the Staff Report which was included in the agenda packet for review.

He requested that the Commission declare the referenced Glock handgun surplus and authorize presentation to Pfc. Ryan Snider.

Commissioner Duryea made a motion to declare the referenced Glock handgun surplus and authorize presentation to Pfc. Ryan Snider. Deputy Mayor Miller seconded, and the motion was approved unanimously.

Mr. Smith stated that he would like to give an update on post-storm activities. Waste Pro is out picking up containerized and bagged debris. They will continue to do so and we will reassess to see what we need to do further. Our debris contractor is out removing hanging limbs from the trees and using grapple trucks to pick up debris. He estimates it will take between 2-3 weeks to complete. He estimates the costs to be somewhere in the neighborhood of \$140,000.00. However, it will depend on how long it takes to complete.

There was a roof leak at PD and Wallace Court. We did have a rescue unit with some flood damage. Our preliminary estimates of total damage are approximately \$235,000.00. We were fortunate compared to the damage others suffered.

Commissioner Duryea asked if there were funds available by FEMA. Mr. Smith stated that we will assess the return on investment as to whether or not we pursue that.

Commissioner Smith asked who is picking up the debris in the residential neighborhoods. Mr. Smith stated that both Waste Pro and the debris contractor are picking up the debris.
